

FLUID SELECTION

Extend sump and tool life, while eliminating skin irritants and odors with safer, cleaner formulas.

FILTRATION SYSTEMS

Keep fluid clean by removal of solids and tramp oils from fluid during use.

RECLAMATION SYSTEMS

Eliminate waste and make used fluids like new for reliable re-use.

TRAINING

Train your staff to continually reduce fluid usage and impact with proper fluid management.

FLUID LIFECYCLE ANALYSIS

We work with you to analyze your operations, looking for ways to reduce, reclaim and save.

CENTRAL MIX SYSTEM

Save operator time. One auto-mix system is plumbed to all machines.

MIX

Save fluid and labor costs. Auto-proportioning systems can end manual mixing.

MQL/NEAR DRY

Precision spray application of high performance oil, eliminating flood coolant.

the CURTIS FLUIDS PROCESS

When you schedule a fluid lifecycle analysis with Curtis Fluids, it doesn't cost a cent.

For over 35 years, we've been helping companies close the loop on fluid waste. Your cost savings are our passion!
